

ONBUILDING

Office Buildings

**AMERICAN
BUILDINGS**

A **NUCOR** COMPANY

Office buildings usually have many goals to accomplish. Not only must they provide efficient work space, but they need to create a favorable impression of your business in the eyes of clients or customers, employees, suppliers and visitors.

The assured way to achieve every one of those objectives without compromise is with a metal building system from American Buildings Company (ABC). ABC's buildings are custom designed using the most advanced computer technology in the industry. Their factory fabricated components are easily erected, slashing on-site time and labor costs and giving you faster occupancy.

ONBUILDING

Office Buildings

ABC's metal building systems can be used alone or in combination with traditional building materials for just the appearance you wish. They offer maximum weathertightness and can be backed by a strong 20-year roof warranty.

ABC buildings are offered in two choices of color finishes, Silicone-Polyester COOL™ finish and SmartKote® PVDF finish. SP-COOL™ panels feature a 25-year finish warranty and is offered in 4 great colors. SmartKote® panels, available in a wide range of colors, can be warranted for an optional 35 years.

As one of the industry's leaders, ABC is represented by a network of Authorized Builders. Every one of them is a highly experienced, quality-oriented Builder who can assume single source responsibility for the success of every project. For better office buildings that meet all your goals and optimize return on investment, check out the ABC solution. For further information, call us or log onto www.americanbuildings.com.
